

Philosophy

St. Francis of Assisi Preschool offers a developmentally appropriate program that allows children to learn at their own pace through hands on activities.

Our program develops the whole child in an atmosphere of encouragement, affection, and creativity.

Our preschool sets the foundation for Catholic learning with a curriculum that is centered on Catholic values.

We emphasize values through song, stories, and prayer.

It is our mission to help children learn and respect themselves and others, to celebrate diversity and uniqueness.

We believe that by allowing children to make choices, and by giving them the opportunity to learn through experimentation, we will help them develop a life long enthusiasm for learning.

St. Francis of Assisi CURRICULUM

Our curriculum for three and young four year olds is play based. We focus on socialization, learning through exploration, and problem solving.

Our program for the older children is a hands-on approach but it will focus on Kindergarten readiness.
